

April 2, 2022

Dear Mayor Woerner and City Council,

On behalf of all the citizens of Livermore, we wish to submit the following letter:

We the citizens of Livermore are deeply concerned about your continued support for developers in our city while silencing your own citizens. You are allowing Eden Housing to build super-sized low-income (affordable housing) buildings on the last piece of open space in downtown Livermore, in disregard of most of the citizens of Livermore, including families with children. For the past year we have petitioned, written, attended council meetings, and met with council members, but our concerns have been overlooked by your administration. This is an open letter to you to please consider building Eden Housing in another location in Livermore. Many possibilities have been offered, including the corner of Stanley and Murrieta Blvd., or across the street on Railroad Ave. We are not against inclusive, fully integrated 'Affordable Housing', but we wish to have a beautiful open-space downtown park, not high-rises that block the sun, a parking shortage, and ugly cement canyons that destroy the community character of downtown Livermore. We can have both affordable housing and a robust downtown park, if you would consider an alternative plan.

Sincerely,
Livermore Citizens
